Director, Press Relations
Mary Washington College
Fredericksburg, Virginia

Dear Sir,

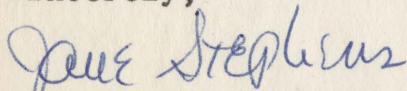

It's not even mid-April yet, but I just bet that visions of May baskets and flowers--as well as queens and courts--are almost visible on the Mary Washington campus. I'm planning to do a picture and story layout next week using May queens' vital statistics and pictures, along with interesting plans for the day's activities at each school. And I'll certainly want to include Mary Washington's queen of the May.

If you'd gather together some information and send it along with the girl's picture we'll be all set. Although head shots will do, I really prefer outside pictures that even show a little of your campus and the girl's normal campus outfit.

I'd like the picture and information as soon as possible, no later than next Tuesday, April 16.

Thank you,

Sincerely,

(Miss) Jane Stephens
